# LS8000

## Kitchen Display System Controller

The LS8000 is an advanced compact kitchen display system controller with Android operating system. The controller is designed and manufactured for reliable uninterrupted operations in harsh kitchen environments. The LS8000 supports peripherals such as Bematech's industry standard PS2 (RJ11) and USB bump bars, VGA monitors and Bematech touch monitors. This robust unit continues to be one of the most cost effective and reliable KDS hardware units on the market. Main features of the LS8000 include heavy-duty die cast housing, snap-to-lock connectors, low power, no moving mechanical parts and no internal cables.
