Productivity
Assured.
xTablet® T8500

Rugged. Reliable. Affordable.

When it comes to productivity, MobileDemand is dedicated to providing the right tools to get the job done. The xTablet T8500 is designed specifically for the mobile workforce where portability, durability and reliability are required from their mobile computing solution.

Running a full version of Microsoft Windows allows for the use of standard desktop applications and other Windows-based enterprise software. The latest Intel Quad Core processor and 8-hour battery means the mobile workforce can work hours on end without having to worry about a slow system or device downtime, especially with IP67 sealing and a 4-foot drop rating.

Add on a high performance barcode scanner, GPS or NFC, and the standard rugged tablet is now an important asset to your operations, helping you get more done in less time.
