Touch Terminal SP-1030 Series
Designed with "State of the Art" Technology

The new SP-1030 series from Partner Tech is a further development of the successful POS line of SP-1000. State of the art CPU technology is applied, to meet the challenging demands of modern POS and customer applications. With different selection of Intel® CPUs, memory up 16GB and touch technologies (resistive, capacitive) the SP-1030 Touch POS Terminal makes the best out of your POS solution.

Smart fan technology guarantees reliability and low maintenance. The flexible touch monitor can be adjusted to meet the requirements of any workplace – whether with convenient wall mount or wide tilt angle. Powered USB devices can also be connected and SP-1030 provides 24V and 12V DC for powering the corresponding USB peripherals.

There are different possibilities to connect a second screen e.g. for digital signage. From 2 x 20 VFD to 15" monitor PM-15 everything is possible.
