

SignatureGem™ LCD4x3

Model T-L755

LCD pad for electronic signature capture, interactive text, and graphics

The SignatureGem LCD 4x3 from Topaz Systems is a versatile electronic signature capture system with integrated electronic display. The LCD shows 'electronic ink' under the pen tip in real time as a users signs, for an easy, natural signature experience. The display also supports interactive text, graphics, and pen-tap 'hot spot,' allowing users to read agreements and navigate between data screens before signing. SignatureGem LCD 4x3 boasts the additional value of Topaz's powerful bundled software tools and support, including ActiveX, Java and J2ME, C++, and .NET development tools, plus MS Of Adobe Acrobat plugins for the capture, encryption, formatting, and secure processing of signatures.
