DATASHEET

Trimble Ranger 3 rugged handheld computer

KEY FEATURES

Outdoor rugged design

Long-life battery – up to 30 hours use

High-performance mobile processor

Large 4.2 inch high-resolution, sunlightviewable touchscreen display

Bluetooth and Wi-Fi

5 MP autofocus camera with flash

GPS receiver with WAAS/SBAS support

Electronic compass and accelerometer

1D barcode laser scanner

3G GSM cellular data modem

Windows Mobile 6.5 Professional

58-key QWERTY plus numeric keypad

THE RANGER 3 HANDHELD COMPUTER HAS THE OUTDOOR RUGGED DESIGN AND INTEGRATED FEATURES THAT USERS COUNT ON.

Ready for the Field

The Trimble® Ranger™ 3 computer is designed to withstand the elements and survive the stress of working outdoors. The Ranger 3 series is tested to rigorous military standards for temperature extremes, drops, vibration, humidity and altitude. The IP67 rating means the Ranger 3 handheld is completely sealed against blowing dust and it can survive immersion in up to a meter of water for 30 minutes.

Trimble rugged computers have proven their reliability and lower Total Cost of Ownership over consumer-grade handhelds in the field with thousands of real world users.

Powerful integrated features

The Ranger 3 series has many built-in capabilities that make it easy to collect, save and transmit data in the field. The integrated GPS receiver, compass and accelerometer enable new possibilities for location-aware software to combine location, bearing and motion data. The 5 megapixel autofocus camera uses the GPS data to capture geotagged images. The camera with flash is useful for inspection, maintenance and repair applications.

Standard features of the Trimble Ranger 3 series include an ARM® Cortex™-A8 superscalar processor, a long-life lithiumion battery, integrated Wi-Fi and Bluetooth® wireless capabilities and 8 GB of Flash storage. The Secure Digital card slot enables the addition of SD/SDHC memory cards for even more storage. The large sunlight-visible VGA display shows images, maps and data in crisp detail.

The optional integrated 1D barcode laser scanner enables a variety of applications, such as tracking parts and assets used in field service applications, as well as warehousing and logistical applications.

The optional integrated 3G GSM cellular WWAN enables connectivity to the Internet and corporate networks, enabling mobile applications to synchronize data with servers and databases in the office.

The Ranger 3 series includes the latest Windows Mobile® 6.5 Professional operating system, so it runs all the applications you use most, including a wide range of third-party software for industry-specific applications. Windows Mobile 6.5 Professional features a new interactive user interface that supports taps, flicks, pans and scrolls, making the user experience more intuitive and fun.

The Ranger 3 supports six languages, customer-selectable at initialization. The included international AC charging kit has four adapters for world-wide compatibility.

With all these features together in one rugged computer, you can support robust mobile applications that enable greater efficiencies and new opportunities for your mobile workforce.

Robust mobile application platform

Multiple integrated features, a highperformance CPU, and a rugged design make the Ranger 3 a very capable computing platform for mobile applications. The Ranger 3 Software Development Kit provides software developers with a hardware-specific API to use in conjunction with Microsoft software development tools.

The Ranger 3 series has Windows Mobile certification and has undergone hundreds of hours of testing to ensure reliability and stability.

Trimble Ranger 3 rugged handheld computer

STANDARD FEATURES

- Texas Instruments AM3715 Sitara[™] ARM® Cortex[™]-A8 processor
- 256 MB of RAM
- 8 GB of Flash storage
- Bluetooth 2.0 +EDR
- Wi-Fi (802.11b/g)
- GPS receiver (SiRFstarIII, SiRFInstantFixII, WAAS / SBAS capable)
- Electronic compass
- Accelerometer
- Three tri-color notification LEDs
- USB 2.0 full speed host port
- USB 2.0 high speed client port
- Serial port, 9-pin RS-232
- Secure Digital (SD/SDHC) card slot

• Microsoft Windows Mobile 6.5 Professional

- 4.2 in (10.6 cm) landscape VGA display, sunlight-readable color TFT
- Resistive touchscreen
- QWERTY keypad with number pad, directional buttons and 4 programmable buttons
- Speaker & microphone
- Headset jack (3.5 mm stereo audio and microphone)
- Operating system language options: Simplified Chinese, English, French, German, Japanese & Spanish (customer selectable on initialization)

OPTIONAL INTEGRATED FEATURES

- 5 MP autofocus camera with dual white LED flash
- 3G GSM cellular data modem
- LED Flashlight function
- 1D barcode laser scanner

STANDARD SOFTWARE

- SMS Text Messaging Support
- Microsoft® Office Mobile Word Mobile Excel® Mobile PowerPoint Mobile Outlook Mobile
- Internet Explorer Mobile
- Calculator
- Microsoft Pictures and Videos
- Calendar/Contacts
- Windows Media Player
- Messenger
- Adobe Acrobat Reader
- Notes/Tasks
- Trimble SatViewer (GPS interface software application)

SOFTWARE FOR OPTIONAL FEATURES

- Customized camera and flash control through Microsoft Pictures & Videos software (geotagging camera software)
- Flashlight mode control application
- Trimble CellStart software application (cellular connection setup)
- Trimble ScanAgent barcode scanning software
- Trimble Ranger 3 Software Development Kit

STANDARD ACCESSORIES

- Rechargeable lithium-ion battery pack
- Hand strap Stylus tether
- Clear screen protectors Display cleaning cloth
- Quick Start guide sheet
- Getting Started Guide on CD-ROM
- · International AC charging kit with four plug adapters
- USB cable
- Stylus with force-modulating spring tip (pkg of 2)
- Audio port dust cover
- I/O port dust cover

OPTIONAL ACCESSORIES

- · Standard soft carry case
- Vehicle mount (compatible with RAM mounts)
- Spare battery charger
- 12 V vehicle charger

Legacy Technology Services

We Rent & Sell All Types Of Barcode Equipment

Call now to talk to an expert

866-271-9891

About us

- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.
- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers

• Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services

· Legacy is one of the best repair facilities in North America

Discontinued product sourcing

 They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services

- That old equipment laying around your facility may still have some value.
 Legacy routinely purchases equipment from our clients around the globe.
 - · Data destruction
 - · Hardware disposal
 - Auditing services

Dedicated client account team

 Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services

• Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
