Mini-Kiosk

The Phoenix mini-kiosk, from AML, is a full-featured, general purpose mini kiosk with a wide variety of application possibilities in different vertical applications.

In retail stores it becomes the perfect customer portal for price lookups, stock checks, gift card balances and much more. In commercial or industrial applications, the Phoenix is an ideal time clock, an access control device, or a data collection terminal.

Powered by Windows® CE 6.0 and featuring a 5.6" full VGA display, the Phoenix comes with 2D barcode scanning, multiple USB ports and is Power-over-Ethernet ready. Variants of the Phoenix offer Wi-Fi connectivity and additional I/O through internal relays and optically isolated inputs. To further round out the Phoenix, users may choose to add a magnetic stripe reader (MSR) or HID proximity card reader.
