

APG's Stratis™ Tablet Holder for Mobile POS Solutions

APG's Stratis™ tablet holder is designed for retailers who are installing mobile and/or Thin (Thinbility) iPad® based point of sale applications. POS software is moving to tablets and to the cloud for easy accessibility and instant reporting. Designed to allow the retailer to take advantage of the small foot print tablet, the Stratis™ tablet holder adds an elegant look to your POS environment.

The tablet holder gives the cashier a firm base to work from during transaction processing. Should the customer's signature be necessary, the iPad® can "flip or slide" over to the customer for the signature approvals. Magnetic connection keeps the Stratis tablet holder firmly in place on the cash drawer.

The Stratis™ holder enables an iPad to seamlessly slide over to the customer facing side for signature approvals.

Stratis Tablet Holder Features:

Size:	<ul style="list-style-type: none"> • 6.73 x 11.22 x 4.13 inches • 171 x 285 x 105 mm 	Feet:	<ul style="list-style-type: none"> • Rubber feet. • Magnets connect the holder to the drawer
