Variety of preconfigured kits available, including:

Workforce Kit

Ideal for mobile workforces that typically carry the printer with them all day and then charge the printer when they return home or to the office. Includes the PocketJet® 7 with wireless and USB interfaces, a battery, preset auto off feature which times out when not in use, a carrying case, and a cigarette lighter adapter for contingency power.

Vehicle Kit

For a vehicle operator who will be mounting the printer inside the vehicle, and powering it primarily from the vehicle, this kit includes the printer with a USB interface and necessary power accessories. But because of the variety of mounting and placement options available, a mounting solution must be ordered separately.

Developer Kit

A specialized kit for developers, including a PocketJet® 7 printer, Brother™ SDKs, configuration software, and additional documentation is also available. Call for complete details.

Basic Kit

Designed for the mobile professional who prints from a laptop or PC, this kit contains essentials including printer, power supply, paper and USB cable.
