

High spec, low budget Cost-effective tabletop printing

Packed with features

The CL-E720 table top printer is packed with features usually reserved for higher class machines. Designed and built for easy operation and service, it includes the proven Citizen ARCP™ mechanism, which guarantees sharp, high quality print results.

Thanks to a built-in sensor and multilingual LCD, you'll always know when ribbons and media are due for a change. The CL-E720 is a highly reliable and cost-effective printer, perfect for medium to busy printing environments.

Environmentally friendly

Featuring an integrated Energy Star® power supply, the CL-E720 meets today's demand for green IT solutions. With super-low standby power consumption, it is one of the most energy efficient printers available.

Space-Saving Design

The CL-E720 is ideal for tight spaces. Its Hi-Open™ case lifts up vertically, so the printer's footprint doesn't change if the case is open.

With standard operations accessible from the front, this printer is designed for easy loading of media and simple maintenance operation.

Well connected

Featuring on board LAN & USB interfaces, the CL-E720 provides several options for field installation. You can also operate the printer remotely and adjust settings thanks to its LinkServer™ management tool which enables you to connect to the printer instantly via a web browser.
