

EASEOFCARE SERVICE PROGRAMS

Datalogic ADC's EASEOFCARE Service Programs provide superior life-cycle support to ensure that products are always operating at peak performance when you need them the most.

Service Programs can be easily ordered at the time of product purchase guaranteeing that units are covered 'out-of-the-box', eliminating wasted time with product registration or subsequent order processing. Maintenance coverage provides you with access to Datalogic's Support Team for easy product returns. You can also use the convenient on-line RMA web service for processing and managing returns, or you can contact the Datalogic Support Desk directly. Don't wait until your product fails to figure out your maintenance options.

The EASEOFCARE Service Programs provide you with the right choice to meet your service expectations – be it managing the total cost of ownership, having expanded repair coverage, or minimizing repair turnaround time. The Overnight Replacement Comprehensive program offers next business day product replacement to minimize any downtime. If serial number integrity is important for asset tracking, the 2-day Comprehensive program offers rapid repair turnaround time of the same unit and also covers accidental breakage. Or, if you want to upgrade product embedded warranty coverage, turnaround time and length, the 5-day program offers the alternative to do so. And, finally if total cost of ownership is critical for expense management, you can purchase multiple years of Service Programs at very economical prices. A variety of service programs are available to match your business requirements.

The EASEOFCARE Service Programs are managed by Datalogic ADC, the same company that designed and manufactured your products, ensuring that you get the best service to protect your technology investment.

Customers say...

"Datalogic Service Programs are a valuable part of the total solution we offer our customers. The quality, responsiveness and flexibility of Datalogic's service team adds long-term value to our customer's technology investment. We know we can rely on Datalogic ADC to provide professional and timely responses to meet our service needs."

Darlene Hazle,
Vendor Relations,
Professional Datasolutions, Inc.

"Datalogic ADC's industry-leading life-cycle maintenance is a strength that helps build and maintain strong channel partnerships. They consistently deliver on their commitments."

Dan McKnight,
Technical Sales Consultant
Liberty Systems, Inc.

About us

- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.
- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers

- Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services

- Legacy is one of the best repair facilities in North America

Discontinued product sourcing

- They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services

- That old equipment laying around your facility may still have some value. Legacy routinely purchases equipment from our clients around the globe.
 - Data destruction
 - Hardware disposal
 - Auditing services

Dedicated client account team

- Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services

- Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
