GreatRibbon™ SDR-A (All Purpose Resin Ribbon)

PRODUCT DESCRIPTION

SDR-A is a high quality, extremely durable 4.5 micron thermal transfer Resin based ribbon. SDR-A was designed for use on paper, synthetic substrates such as polyester, polypropylene and other film labels. It has superior resistance to friction and scratching. It is very resistant to solvents and is a good resin ribbon for printing rotated bar codes. An excellent ribbon and label system combines SDR-A and FanTastock™ polyester labels as well as TTL paper, Synthetic paper and Polyprop 4. Printed labels do not require any special treatment, such as over-laminates, for very environmentally tough applications. SDR-A is UL recognized in combination with FanTastock™ 2 (white, silver and clear) and FanTastock™ 2 Clear 1 mil overlamine under (File PGJ12.MH17946).

CERTIFICATIONS

British Standard 5609: The printed ink withstands immersion in seawater.

BGA - Direct food contact (Europe). Compliance with the rules of the German law concerning the handling of foodstuffs, tobacco products, cosmetic products and other consumer goods (Foodstuffs and Consumer Goods Act). Certifications given after analysis by an independent German Laboratory. No heavy metals enter the composition of this TT ribbon. Some traces from raw materials can be found at an amount inferior to 50 ppm. European regulations fix the maximum permitted amount at 100 ppm.

USAGE

- Melting Point: 176°F (80°C)
- Storage Temperature: 41°F to 95°F (5°C to 35°C) at 20% to 85% Relative Humidity
- Avoid high temperature, high humidity and direct sunlight during storage
- Recommended Shelf Life: one year

APPLICATION NOTES

- Recommended for environments and applications where the ultimate in label and image durability is required.
- Remarkable resistance to friction and scratching.
- Ideal for high temperature labeling up to 356°F (180°C).
- Resistant to solvents.
- Asset management, serial number and identification labels, durable goods, outdoor applications, jewelry labels, PC board labels, bin and shelf labels, and many other tough applications.
- Good resin ribbon for printing rotated bar codes.
- UL recognized.

Recommended Thermal Transfer Label Materials: TTL paper, TTL Synthetic paper, Polypropylenes and Polyesters. For UL recognition: FanTastock 2 and FanTastock 2 Clear 1 mil overlamine

About us

- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.
- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers

- Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services

- Legacy is one of the best repair facilities in North America

Discontinued product sourcing

- They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services

- That old equipment laying around your facility may still have some value. Legacy routinely purchases equipment from our clients around the globe.
 - Data destruction
 - Hardware disposal
 - Auditing services

Dedicated client account team

- Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services

- Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
