DENSO

HANDY SCANNER

NEW

GT20
SERIES

GT20 series specifications

|			Barcode model		2D Code model	
Type			GT20B-SM (U)*1	GT20B-SM (R)	GT20Q-SM (U)*1	GT20Q-SM (R)
Scanner	Method		Advanced Scan Plus (CCD)		Area Sensor	
	Readable codes	2D Code	—		QR code, Micro QR code, SQRC, iQRcode, Data Matrix (ECC200), PDF417, Micro PDF417, Maxi code, Aztec, GS1 Composite	
		Barcode	EAN-13/8 (JAN-13/8), UPC-A/E, UPC/EAN (with add-on), Interleaved 2 of 5 (ITF), Standard 2 of 5 (STF), CODABAR (NW-7), CODE32, CODE39, CODE93, CODE128, GS1-128 (EAN-128), GS1 Databar (RSS), MSI, Plessey		EAN-13/8 (JAN-13/8), UPC-A/E, UPC/EAN (with add-on), Interleaved 2 of 5 (ITF), Standard 2 of 5 (STF), CODABAR (NW-7), CODE39, CODE93, CODE128, GS1-128 (EAN-128), GS1 Databar (RSS)	
	Minimum resolution	2D Code	—		0.167 mm	
		Barcode	0.125 mm			
	Marker		—		Area guide marker	
	PCS value		not less than 0.30			
	Angle		±50°C			
	Skew angle		—		360°	
	Image capture		—		BMP, JPEG output, thumbnail view	
	Scanning confirmation		Confirmation LED (Blue, Green, Red), Buzzer (with 3-level volume control and 3-level tone control)			
Communication interface	Method		USB	RS-232C	USB	RS-232C
	Connector		USB connector (A type)	Dsub-9S	USB connector (A type)	Dsub-9S
	Cable		2 m	2 m, 5 m	2 m	2 m, 5 m
Power			Supply from the connection*2	Directed AC adapter	Supply from the connection*2	Directed AC adapter
Environment requirements	Protection rating		IP65			
	Drop resistance*3		2.0 m × 60 times on a concrete floor			
	Operating temperature		-20~50°C			
	Operating humidity		10 to 90% RH (without dews)			
Weight (excl. cable)			Approx. 180 g			

*1: Two methods are supported: a USB keyboard interface and a USB-COM interface. The factory default is a USB keyboard interface for GT20B and a USB-COM interface for GT20Q.
*2: Please check the connection beforehand because this type of connection may not be possible depending on the model of the PC or USB hub.
*3: Result obtained in a test under regular temperature is shown and not meant as a guarantee.
Scanning performance

2D code model

Standard scanning distance (75mm) 59×37
161×102
122×77
88×55
42×27
37×23
31×19
23×14

Barcode model

0.125mm 220
0.26mm 400
0.33mm 500
0.5mm 670
Accessories

● Scanner ● Interface cable ● AC adaptor ● Operation Guide ● Instruction manual **HP↓**

Dimensions

Unit: mm

73

92
83
184

Optional accessories (seperetely sold)

● S-GT20 (Stand)
● S-GT21 (Stand)
● H-GT10 (Hands-free stand)
● H-GT11 (Hands-free stand)
● H-GT20 (Hands-free stand)
● H-GT21 (Hands-free stand)

Software

● USB driver [Active USB-COM port driver] **HP↓**
● Setting software [Scanner Setting (for barcode models)] **HP↓**
　　　　　　　　 [Scanner Setting 2D (for 2D code models)] **HP↓**
　　　　　　　　 [SQRC Setting (for 2D code models)]
● Keyboard emulation software [QR_kbif] **HP↓**

HP↓ Items with this mark can be downloaded on our webpages for free.

Durable, Heavy-Duty Design

DENSO WAVE INCORPORATED

GLOBAL PRODUCTS

5 YEAR WARRANTY

Constant Toughness Even under Extreme Conditions

Secure robustness

2.0m Drop impact resistance

Highest standard in the class of 2 m × 60 times
GT20 has a highly durable design to withstand strong impact, so there is nothing to worry about if you drop this scanner.

Environmental resistance

IP code rating of IP65 achieved
GT20 is recommended with confidence even in the case that it is used under severe conditions, such as at dusty or wet locations.

Operating temperature range

Between -20 and 50˚C
GT20 can be used under various types of environment, such as inside cold storage chambers and semi-outdoor areas in plants, expanding the range of use for customers.

Overwhelming reading performance

SPEED High-speed reading

Adopting a powerful reading algorithm created exclusively by the manufacturer that developed the QR Code
Smooth reading that does not cause stress on users contributes to improving work efficiency.

LCD screen reading

The original LED lighting control function enables smooth reading of codes displayed on a liquid crystal screen.
GT20 can read QR Codes displayed on a PC or tablet screen, expanding the range of use for customers.

Poorly printed label reading

Efficient at reading dirty and blurred codes
GT20 has such a high reading performance that it can read even poorly printed codes very efficiently, so there is nothing to worry about even at a site under severe conditions where codes easily become dirty, delivering "What a high reading performance!"
360˚ 360˚ reading

Quick operations with 360˚ reading
Users can carry out operations without concern as to the direction of barcodes.

2D code models only

Additional features!!

Point Scan Mode

GT20 can read only the targeted code indicated by the central cross even when multiple codes exist in the reading area.

Targeted reading

2D code models only

One-time reading of multi-row barcodes

GT20 can read a barcode with up to three rows at a time.

One-time reading

2D code models only

Concatenated QR Code reading

GT20 can read a concatenated QR Code at one time.

One-time reading

2D code models only

Outstanding operability

Confirmation of reading

Double LED, buzzer and vibrator incorporated
GT20 allows secure confirmation by "light," "sound" and "vibration" even in noisy conditions.

Among the most lightweight designs in its class

Lightweight body weighing 180 g
The lightweight and compact design can reduce fatigue when used for long periods. Its user-friendly body is highly durable yet lightweight.

Marker

With an area guide marker
The marker makes it easy for users to identify the reading area, enabling smooth operations.
2D code models only

Suspensible

GT20 has a hook so that it can be hung from the ceiling together with other jigs when used at plant lines, etc.
Considerations only possible by Denso Wave, expanding the range of use for customers

Code lock

The connector cover, which is resilient against becoming detached and breaking, firmly locks the cord.
The body is not the only durable part. Denso Wave paid meticulous attention to even the shape of the connector cover and achieved robustness in every detail.

Diversified functions

Magic Key

Work can become more efficient by allocating a convenient function to the Magic Key.

Data re-transfer mode	Previously sent data is re-transferred every time the Magic Key is pressed.
Designated character transfer mode	Predetermined characters are sent every time the Magic Key is pressed.
Read code switching mode (GT20Q only)	Two predetermined read codes are alternated every time the Magic Key is pressed.
Configuration software

Setup from PC

Free software applications "Scanner Setting" and "Scanner Setting 2D" are included, allowing easy configuration of the reading condition, data format, etc. according to the object to be read.
These applications providing convenient functions can reduce customers' work load concerning application development.

Image capture

Image shooting possible
When a non-conforming product is detected on a plant production line, for example, the image of the product can be captured with GT20 on site and sent to its host.

Equipped with data collation and edit functions
Development of a dedicated application is not required

Equipped with a function to compare the registered master data with the read data
This function enables easy establishment of systems for non-conforming product checking and incorrect labeling checking. Furthermore, the simplified programming software application "ADF Script" makes it easy to edit data freely, including data sorting, extraction and conversion.

2D code models only

Legacy Technology Services

We Rent & Sell All Types Of Barcode Equipment

Call now to talk to an expert
866-271-9891

www.LegacyGlobal.com

Some brands we carry

About us
- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.

- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers
- Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services
- Legacy is one of the best repair facilities in North America

Discontinued product sourcing
- They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services
- That old equipment laying around your facility may still have some value. Legacy routinely purchases equipment from our clients around the globe.
  - Data destruction
  - Hardware disposal
  - Auditing services

Dedicated client account team
- Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services
- Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
