Product Overview

The Elo 1598L 15-inch open-frame LCD touch display features a slim design and narrow outside dimensions due to the state-of-the-art, energy-saving LED backlight, using less electricity to operate and generating less heat. The 1598L includes a 500 nit high bright display and extended temperature range to 50° C (122° F) making it ideal for factory automation and other instrumentation control applications. With an optional 24 VDC converter kit included with the unit, manufacturers can leverage a common 24V power supply in their design with a single AC connection. This compact touch display is designed for touch with proven Elo expertise and provides stable, drift-free operation with outstanding image clarity and light transmission—for accurate touch responses and vivid images. Instantly grabbing and holding users' attention, the 15-inch open frame is perfect for kiosks, casino and amusement, retail self-service, and industrial automation environments.

The 1598L is available with Elo's industry-leading AccuTouch® five-wire resistive with single-touch technology

The touchscreen is sealed against dirt, dust and liquids, to simplify integration into the final enclosure

Video Interfaces: HDMI, VGA & Display Port
