

Epson TM-P60II Series

DATASHEET

The Epson TM-P60II is a second-generation, wireless mobile receipt printer from the world's leading POS printer manufacturer¹. Offering a brilliantly simple printing solution, the hand-held TM-P60II prints directly from mobile devices² – no drivers needed.

Unique, built-in intelligence, called Epson ePOS-Print, enables the TM-P60II to receive XML commands from web applications, and to print directly from popular web browsers. This makes integration and maintenance easy.

To help serve customers quickly, the high-performance TM-P60II prints receipts at up to 100mm/sec. Drop-in paper loading ensures there are no delays.

The TM-P60II is designed for maximum reliability, with a rugged case. Its battery lasts for up to 46 hours in Bluetooth mode, and up to four batteries can be charged simultaneously using the optional charging unit.
