

Epson TM-T70II

Thermal Printer

- Designed to fit under counters
- Front-facing controls, paper loading and receipt dispensing
- Fast printing up to 250mm/sec for both text and graphics
- Paper saving options reduce costs
- Enables intelligent couponing triggered by keywords/sequence
- Two-year limited warranty

The TM-T70II, with easy all-front access, is designed to fit under counters.

The innovative, space-saving TM-T70II printer with easy all-front access is designed to operate entirely from the front of the printer. This means you can put it under a counter or on a shelf and free up your valuable counter space.

Big performance. Small footprint.

Streamline your POS system with Epson's space-saving TM-T70II printer. With its small size and low height (only 4.49" high), it's designed to fit under your counter or in other small spaces. And it has all the features you need to keep your lines moving.

High-speed, high resolution text and graphics printing

The TM-T70II prints receipts and graphics at the same fast print speed up to 250mm/second. And with its 180 dpi resolution you are assured of crisp, clear receipts and eye-catching logos. Barcodes are also supported, including 2D.

Easy to use. Easy to maintain.

You can operate and maintain the TM-T70II entirely from the front of the printer. It features front-dispensing receipts, front drop-in paper loading and front-facing controls. And its ergonomic design allows the front cover to be opened and closed with one hand.

Reliability you can count on

With a MCBF of 65 million lines, the TM-T70II features the high reliability Epson is known for. It also has a sealed top for superior spill resistance and an optional cable management system.

Lower energy costs

The TM-T70II features low power consumption to reduce your operating costs and is ENERGY STAR® qualified and RoHS compliant.

Integration made easy

With Epson's Connect-It™ interfaces, the TM-T70II is compatible with today's best-of-breed and component-based systems. It comes with dual Interfaces, a USB and one additional interface. Other interfaces available include serial, parallel, powered USB, Ethernet and wireless.
