

PS336

Windows®. Life without Walls™. Getac recommends Windows 7.

FULLY RUGGED 3.5" HANDHELD

MIL-STD 810G and IP68 certified
Microsoft Windows ® Embedded Handheld 6.5
3.5G WWAN option
RS232 Serial Port, USB OTG
Field swappable long-life Li-Ion battery
Embedded high sensitivity GPS receiver
5 Megapixel auto-focus camera

Windows® Embedded Handheld.

The PS336 comes with Windows Embedded Handheld 6.5, providing you with a wider range of uses and applications across utility and field service sectors.

GIS Ready.

The PS336 rugged handheld is built with an e-compass, altimeter, integrated GPS and a G-sensor accelerometer that can measure speed, vibration and rotation. These features open the door to countless application possibilities, making it ideal for GIS surveying and other GPS/mapping-based applications.

Information Capture.

With Getac Flexiconn™ technology, you can easily add new modules/caps to expand functionality including 3-in-1 HF RFID Card Reader, Long Range Bluetooth, 1D Barcode Reader.

Built to Survive™.

In addition to IP68 certification, which protects against dust and allows the unit to be water-proof up to one meter, the PS336 is independently certified to MIL-STD 810G standard, and can operate in temperatures from -22 °F to 140 °F.

Sunlight Readable Display.

The PS336 features a 3.5 inch display specifically designed for viewing in direct sunlight. The display uses a special multi-layered touch sensor that registers pressure, allowing you to keep your gloves on - perfect for using in cold or hazardous environments.

5 Megapixel Camera.

The PS336 features a built-in 5-megapixel camera with autofocus and an LED flash - perfect for GIS mapping.

Warranty 3 Year limited warranty standard[†]

Specification subject to change without notice. Battery performance will vary based on software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. As with all batteries, maximum capacity decreases with time and use and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings. Battery life may be reduced in subzero applications.

^{*} For storage, 1GB = 1 billion bytes; actual formatted capacity less

^{**} Weight is without 3G module. Weight varies by configuration and manufacturing process.

Legacy Technology Services

We Rent & Sell All Types Of Barcode Equipment

Call now to talk to an expert

866-271-9891

About us

- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.
- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers

• Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services

· Legacy is one of the best repair facilities in North America

Discontinued product sourcing

 They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services

- That old equipment laying around your facility may still have some value.
 Legacy routinely purchases equipment from our clients around the globe.
 - · Data destruction
 - · Hardware disposal
 - Auditing services

Dedicated client account team

 Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services

• Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
