

HP 260 G1 Desktop Mini PC

The fully functional HP 260 Desktop Mini PC delivers the benefit of space saving design that can grow with your business and is equipped with the essential tools you need at an affordable price.

HP recommends Windows.

- Windows 8.1¹
- 4th Generation Intel® Core™ Processors²

Work confidently without the cost

- Get the affordably priced business ready desktop mini with the accessories³ and optional HP services³ you need plus power saving processors to help lower energy costs.

Small design, big versatility

- The industrial design of the compact desktop mini with flexible mounting options³ and optional accessories³ help support a versatile range of use cases from desktop to public computing to digital signage.

Powered to perform

- Accomplish tasks with 4th generation Intel® processors² and HD 4400 graphics with the option to scale up to Core™ i5² if your workload demands it.

Ready to grow

- The system of accessories and expansion capabilities of the HP 260 Desktop Mini provide multiple options within one line of products to fit the needs of your diverse work environment.

Featuring

- Do your part to reduce energy use and costs with processors that help consume less than half the energy of those in other mini PCs.
- Take advantage of expandable and compatible HP mini accessories. Expand storage options,³ add legacy ports with expansion modules, help secure your device with security mounts,³ or take back your desk space with stands and work centers.³
- Help keep your investment safe and conveniently power up your desktop mini directly from the keyboard so you don't have to open enclosures or strain for the power button when it's out of reach.
- Do more on dual displays with DisplayPort 1.2 and full HD VGA ports, plus use 6 USB ports to plug in all the peripherals you need.
- Choose the operating system that best fits your needs from a range of Windows options including Windows 8.1¹, Windows 7¹, and education editions.
- Choose a standard hard drive or upgrade to a speedy and reliable solid state drive.³
- Easily secure your system in a safe place without needing a dolly. At less than 2 lbs / .90 kg, the desktop mini is easy to carry and store.

HP 260 G1 Desktop Mini PC Specifications Table

Product number: U7899E

Messaging Footnotes

¹ Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See <http://www.microsoft.com>.

² Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing system required. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

³ Sold separately or as optional features.

Technical Specifications Footnotes

¹ Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See <http://www.microsoft.com>.

² This system is preinstalled with Windows 7 Pro software and also comes with a license and media for Windows 8.1 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data. Optional accessories sold separately.

³ Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

⁴ Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.

⁵ For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) and up to 36GB (for Windows 8) of system disk is reserved for system recovery software.

⁶ M.2 SSD is only available when Celeron processor is chosen

⁷ HD content required to view HD images.

⁸ Optional or add-on features.

⁹ Integrated Intel HD graphics uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by other programs.

¹⁰ ePrint requires an Internet connection to HP web-enabled printer and HP ePrint account registration (for a list of eligible printers, supported documents and image types and other HP ePrint details, see www.hp.com/go/businessmobileprinting)

¹¹ HP Support Assistant requires Windows 7 or later edition and internet access.

¹² HP PageLift requires Windows 7 or higher edition.

¹³ EPEAT® registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country.
