NAUTIZ X1

BUILT TO SURVIVE

The Nautiz X1® is an ultra-rugged, ultra-compact handheld built for professional work in harsh environments. It breaks through barriers of size, toughness and reliability to offer field professionals the proven ruggedness of a Nautiz ultra-rugged handheld that runs the Android 4.0 (Ice Cream Sandwich) or Windows Embedded Handheld 6.5 operating system.

With the Nautiz X1, you don't have to choose between dependability and slim design. With its small size and light weight of only 180 grams (6.3 ounces), it's among the smallest enterprise handhelds. Built for the toughest conditions, the Nautiz X1 meets stringent MIL-STD-810G military standards for withstanding humidity, vibration, drops and extreme temperatures. And with an IP67 rating, the Nautiz X1 is fully waterproof and impervious to dust and sand.

The Nautiz X1 runs on a powerful 1 GHz dual-core processor and 1 GB of RAM, which allows top-notch performance in the field, whether you're displaying vivid images and graphics or using customized work software. The Nautiz X1 comes with 4 GB of onboard memory, expandable via a MicroSD card slot.

The 4-inch, 800x480 WVGA capacitive touchscreen is sunlight-readable and scratch-resistant. On the Nautiz X1's rear face, a 5-megapixel autofocus camera and true LED flash allow you to take crisp photos, even in dark environments.

The Nautiz X1 also offers high-speed data transmission worldwide over GSM networks, and connects to 802.11 b/g/n WiFi networks. Both a standard 1530 mAh Li-Ion battery and a 3060 mAh extended battery come with the Nautiz X1, giving you options for choosing which configuration works best for you. And when you're out in the world, embedded GPS, E-compass and G-Sensor keep you on the right track.

Plug into a 3.5-millimeter mic/earphone jack, or pair the Nautiz X1 with your BT peripherals. Plus, the Nautiz X1 has a multitude of optional accessories, including a desktop cradle, an extended battery, a vehicle cradle and carry cases.

If you need an ultra-compact and powerful handheld that can satisfy your demands for tough field work, don't limit yourself to just a regular mobile device — choose the Nautiz X1 for an ultra-rugged tool that keeps your data safe no matter what.
