

Captuvo SL22h

Enterprise Sled for Apple® iPod touch®

For healthcare organizations committed to being the most progressive provider in their community, deploying the Apple® iPod touch® mobile device with hospital-proven bar code scanning technology from Honeywell Scanning & Mobility represents a true sign of leadership. The Captuvo SL22h series enterprise sled for the Apple® iPod touch® provides healthcare professionals with an easy-to-use tool to help them be more productive, and demonstrate to patients and their families the rigor applied to improve patient safety.

The lightweight and easy-to-hold SL22h protects and transforms the intuitive Apple® iPod touch® into a durable, enterprise-ready healthcare device. Its ability to shield the Apple® iPod touch® during drops and tumbles will enhance the effectiveness of healthcare providers and protect the investment in equipment made by healthcare organizations.

The SL22h features a fully integrated bar code imager that has been optimized to read the most difficult bar codes found in hospital applications on the first scan. In addition, the SL22h is excellent at resisting the harmful effects of harsh cleaning agents commonly used in healthcare environments, unlike devices made from traditional plastics.

When matched with Honeywell's Remote MasterMind™ 3.0 software, healthcare IT groups can remotely manage deployed iPod touch® devices, as well as other Microsoft® Windows®, Google® Android™ and Apple® iOS™-based mobile devices.

The Captuvo SL22h series enterprise sled from Honeywell is backed by a one year warranty and more importantly, is backed by a brand trusted to deliver exceptional healthcare technology.

Features

- **Integrated Bar Code Scanner:** Increases productivity with an integrated and easy-to-use imager that provides aggressive scanning of linear, 2D and even high density and poor quality bar codes found in healthcare environments
- **Purpose-Built Protective Housing:** Provides added durability to the iPod touch®, resulting in a solution that is more reliable
- **Lightweight and Compact Design:** Reduces user fatigue by offering single-handed functionality in a form factor that easily fits in a scrub or lab coat pocket
- **Disinfectant-Ready Housings:** Optimal for environments where the device must be cleaned frequently with harsh chemicals, and device reliability is important
- **Laser-Free Bar Code Solution:** Class I LED illumination mitigates the risk of eye injury and, unlike laser-based devices, does not require training for safe operation
- **Optional Security Mechanism:** Secures the Apple® iPod touch® in the sled via a unique screw, improving overall durability while reducing the likelihood of theft of the iPod touch®

Captuvo SL22h Technical Specifications

Mechanical

| | |
|--------------------|---|
| Dimensions (LxWxH) | 130 mm x 67 mm x 30 mm (5.1" x 2.6" x 1.2") |
| Weight | 125 g (4.4 oz) |

System Architecture

| | |
|-----------------------------|---|
| Device Compatibility | Apple® iPod touch® (fourth generation) |
| Input Voltage | 5V |
| Interfaces | UART between SL22 & iPod touch®; USB between iPod touch® & PC |
| I/O Ports | microUSB |
| Power Supply | 5V, 1A wall adapter |
| Buttons | Left and right side scan buttons; sleep/wake button (extension of iPod touch® button); access to iPod touch® Home button |
| Audio | Access to iPod touch® 3.5-mm stereo headphone minijack, speaker and microphone |
| Camera | Access to iPod touch® front and back cameras |
| Scanner | N5600 High Density (HD) imager with green LED aimer that comes equipped with Adaptus 6.0 Imaging Technology |
| Decode Capabilities | Reads standard 1D, PDF, 2D, Postal and OCR symbologies |
| Battery | Removable 1150mAh lithium ion battery |
| Number of Scans | Up to 28,000 scans (1 scan per second over 8 hours) |
| Expected Hours of Operation | 8 hours (Captuvo SL22 + Apple® iPod touch®) |
| Expected Charge Time | 4 Hours |
| Development Environment | HSM SDK for Apple® iOS X |
| Application Software | Available on the Apple® App Store or via 3rd party application developers (visit www.isvstore.com/iosapps for more information) |
| Warranty | 1 year factory warranty |
| Accessories | Standard USB A to microUSB cable (included), USB wall adapter for US, UK and EU (included), 4-bay charger, holster, protective rubber boot, wrist lanyard |

Environmental

| | |
|-----------------------|---|
| Operating Temperature | 0°C to 35°C (32°F to 95°F) |
| Storage Temperature | -20°C to 45°C (4°F to 113°F) |
| Humidity | 5% to 95% relative humidity, non-condensing |
| Drop | Designed to withstand 1.2 m (4') drops to concrete, all axis and across temperature range |
| Environmental Sealing | IP30 |
| ESD | ±6 KV Direct & ±15 KV Air |

About us

- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.
- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers

- Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services

- Legacy is one of the best repair facilities in North America

Discontinued product sourcing

- They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services

- That old equipment laying around your facility may still have some value. Legacy routinely purchases equipment from our clients around the globe.
 - Data destruction
 - Hardware disposal
 - Auditing services

Dedicated client account team

- Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services

- Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
