### Enterprise Sled for Apple iPad mini™

Honeywell's Captuvo SL62 enterprise sled encases the popular Apple® iPad mini™, transforming it into an enterprise-ready device for businesses that prefer the simplicity and familiarity of iOS, but need additional functionality built in like scanning and secure payment processing.

From the leader in barcode scanning technology, the Captuvo SL62 features an integrated scanner with Adaptus™ Imaging Technology 6.0. This enables fast and accurate reading of linear and 2D barcodes on product, government issued IDs, coupons or loyalty club cards.

The Captuvo SL62 sled provides a protective housing for all versions of the iPad mini increasing its ruggedness against wear and tear and is compatible with various applications such as price and product look-up, inventory management, and scanning items for purchase at point-of-sale.

An optional integrated magnetic stripe reader is also available, supporting encrypted and unencrypted data output, which facilitates secure, quick and easy processing of credit card transactions and allows associates to check-out customers on the spot, wherever they may be.

Compact and easy to hold with one hand, the Captuvo SL62 provides an opportunity for businesses to upsell products and services by engaging at the point of customer service. A mobile printer can also be worn at the hip at the same time to allow for instant receipt printing.

The Captuvo SL62 is the superior solution when it comes to constantly adhering to increasing customer demand for fast and high-quality service. This device will help users elevate their brand, empower employees, enhance customer experience, drive top-line growth and maintain customer loyalty.

### Features

---

- **Second-to-None Scanning:** Increases productivity and throughput with an integrated and easy-to-use imager that provides aggressive scanning of linear and 2D bar codes.
- **Protective Housing:** Keeps the iPad mini protected from abuse such as drops or bumps common to enterprise environments without blocking the larger screen.
- **Optional Encryption-Ready Magnetic Stripe Reader:** With third-party key injection, cardholder data is encrypted as the card is swiped, protecting sensitive data and retailers' reputations, while reducing PCI scope.
- **Remote Mastermind 4.0 Software:** Assists enterprises to remotely manage deployed iPad mini devices and other iOS devices, lowering total cost of ownership.
- **EasyDL™:** Reduces transaction time by 95% through automatically parsing the bar code data found on government-issued identification cards for age verification or automatic electronic form population for loyalty, membership or credit applications.
