

Product profile

Duratron II™ Syntran

Thermal Transfer Film

- Aggressive high tack adhesive
- Water & moisture resistant
- Good UV and weathering resistance
- Clean, sharp print definition

Intermec's Duratron™ II Syntran is a durable polyethylene thermal transfer label product. Syntran resists tearing, moisture, grease and certain chemicals. With its balanced physical properties, Syntran conforms well to irregular surfaces. With good strength, durability, and excellent printing qualities, Syntran is suitable for a variety of applications.

- Asset tracking
- Tamper evident labels (warranty seal, luxury goods, retail)
- Shelf labels
- Flexible product marking
- Product closure
- Horticulture
- Drum labels

Better Together

The Intermec media solution has added advantages when paired with Intermec printers:

- Co-engineered printers and media ensure consistent print quality and performance.
- Thermal transfer printability allows on-demand generation of durable labels, eliminating high cost and inventory obsolescence associated with preprinting.
- When Intermec media is used exclusively with Intermec printers, the Free Printhead Replacement Program offers significant cost savings.

Description

Polyethylene label

Physical Attributes

3.2 - 3.8

Adhesive

Rubber - High Tack

Caliper Mils: 1.0 - 1.4

Peel Adhesion (90° Stainless Steel oz/in: 50 target

Liner

50# Super Calendered Kraft

Caliper Mils: 3.0 target

Ribbon Compatibility

TMX 1000

TMX 2000

Recommended for Outdoor Use

6 months

Environment

Storage Temperature: 40° to 80°F

Storage Humidity: 35% to 75%

Shelf Life: 12 months

Minimum Application Temperature: 35°F

Service Temperature: -65° to +200°F

Typical Applications

- Durable labeling
- Drum labeling
- Warranty seals for spare parts
- Security labels
- Luxury labeling where tamper evidence is desired
