

uDynamo

MagTek's uDynamo provides universal connection options for its users. The uDynamo secure card reader authenticator connects to a wide variety of devices through its retractable headphone jack. It also provides a USB interface for connection with various devices including Windows or Mac PCs, and is perfect for virtual terminals. The uDynamo combines the latest technologies for reliable and secure mobile payments and identification.

Benefits

The uDynamo SCRA allows merchants to make secure transactions while on-the-go using mobile devices and connecting through their mobile headphone jack or USB connections. The secure card reader authenticator uses the MagneSafe™ Security Architecture to protect cardholder data through instant dynamic encryption, tokenization and authentication.

Features

- Adjustable stabilizer for a variety of devices
- Swipe path design yields highest read reliability on first pass
- Triple DES encryption sealed inside the head
- Derived Unique Key per Device and Transaction
- Remote configuration and key loading
- Headphone jack interface - digital output
- Retractable headphone jack
- USB interface (power and comm i/o)
- Track 1, 2 and 3 data
- Mutual device/host authentication
- Anti-skimming features
- Counterfeit detection - cards and devices
- Tamper resistant, evident and responsive enclosures
- Token generation (the card, the PAN and the transaction)
- Reads ANSI/ISO/AAMVA cards
