

THE S-LINE

with integrated EPSON® printer

The S-Line Series redefines the all-in-one design by integrating an EPSON® thermal receipt printer into a touch computer. Its compact design allows easy setup, reduces cable clutter, and saves precious counter space.

The S-Line's patented tool-less design allows the printer to be replaced in the field within minutes, without affecting the entire system. The integrated EPSON® printer supports 80mm paper roll.

The S-Line saves counter space, which can be used to generate additional revenue by displaying advertisement or impulse merchandise. The S-Line can also be strategically placed in a store as a Point-of-Information or Self-Check-Out kiosk to provide convenience and improve customer satisfaction.

Ideal for retail, restaurant, bar, quick service point-of-sale, point-of-purchase, self-ordering kiosk, and queue management.

- Display size from 12" to 17"
- Intel Atom DualCore 2GHz, up to Core i7
- 2GB memory, up to 8GB
- Hard drive, or SSD for storage
- POS Ready, Windows 7, Windows 8, Linux
- Intel Gigabit network (built-in WiFi option)
