Flexible! Powerful! Elegant!

XT-5317
High End Fanless POS Terminal

In today's retail and hospitality market, POS terminal is no longer just a cold and hard business tool. It is a part of the store decoration, a part of the store image. Each curve and detail of the POS terminal should lighten the overall mood of the store, to lift the shopping experience of customers.

With the true-flat PCAP touch screen supporting multi-touch, beautifully sculptured slim body, sexily curved base stand, Posiflex XT-5317 fits in well with any elegantly decorated store. And more than just good looks, Posiflex XT-5317 is powerful enough to handle any task imaginable that comes its way.

Looks

Slimmer than ever, XT Series is a sharp departure from the traditionally more conservative Posiflex terminal design. Every curves and details are carefully thought out to make XT Series one of the most visually desirable terminals in the market.

Flexibility

XT-5317 comes with the selection of two foldable bases, the curvy slim GEN7E Base and the larger but practical GEN8E Base.

The new foldable bases allow XT-5317 to be configured into different configurations. "Flat Folded Mode" to save the shipping package volume. "Low Profile Mode" to allow greater interaction between cashier and the customers; and the traditional "Full Extended Mode". All this can be achieved with a simple pull of the hidden lever. This one terminal/multi-configurations concept provides unmatched flexibility to store owners and system integrators alike.

Performance

XT-5317 offers a wide range of performance options from Intel Celeron to Intel Core i3 that is powerful enough to process anything thrown at it without even breaking a sweat.

Fanless Design

Fanless architecture of XT-5317 allows it to operate in the harsh environments, such as greasy kitchen, without ever worrying about the fan maintenance. It also enables the machine to run quietly, which is ideally suited for the high-end boutique stores or hospital environment.

GEN8E Base

Optional GEN8E Base that integrates internal power adaptor and PoweredUSB port into the base stand, which keeps counters clutter-free.
