

## RedBeam Asset Tracking

Intuitive, affordable, complete data collection solutions!

### *Fixed asset tracking made easy!*

RedBeam makes fixed asset tracking easy! Track computers, equipment, furniture, vehicles, and other valuable assets with this comprehensive fixed asset tracking application and easy to use mobile computers.

This tested and proven asset tracking solution integrates best asset tracking practices; bar coding, detailed record keeping, and reporting capability into one powerful system. Ideal for businesses and organizations that need to track 500 or more fixed assets, RedBeam Asset Tracking provides a complete fixed asset database, the ability to easily keep asset records up to date, and the ability to streamline the physical inventory process by up to 70%.

Easily capture important information about each asset including barcode ID, location, department, maintenance, purchasing, warranty, lease, depreciation, IT information, and up to 50 user definable fields. To update asset records, simply choose the fields you want to update and sync with the mobile computer.

Barcode technology streamlines the physical inventory process significantly. Using the mobile device, simply scan the barcode location, scan the assets in that location, and move on to the next room. If an asset is new or has moved, the system will let you know. When finished, you see right on the handheld if you've missed any assets to prevent you from having to revisit them later.

RedBeam Asset Tracking is used by a wide variety of organizations, including state, local, and federal government agencies, single site and multi-site companies, and other entities that need to track assets and capital equipment. RedBeam makes it easier than ever to keep asset records up to date. Whether you have 500 or 50,000 assets, RedBeam Asset Tracking is the solution you are looking for!

## RedBeam Asset Tracking

Intuitive, affordable, complete data collection solutions!

### Supported Mobile Devices

RedBeam supports a variety of enterprise level mobile devices to provide you with the tools needed to streamline tasks, improve productivity, and maximize investment protection.
