## **TDP-247 . TDP-345** **DESKTOP DIRECT THERMAL BAR CODE PRINTER**

TSC™ is pleased to introduce the blazing fast TDP-247 series of direct thermal label printers. This outstanding series of printers offers both best-in-class speed and high-resolution capabilities along with TSC's exceptional durability and reliability. The TDP-247 series delivers ideal performance for product marking, shipping, retail and other labeling applications – all at the best available prices.

The TDP-247 series features two fast models. The TDP-247 printer is a 203 dpi resolution, 4" wide printer that prints at speeds up to 7 inches per second. The TDP-345 printer offers high resolution 300 dpi printing at speeds up to 5 inches per second. Both models come standard with USB, Parallel and Serial connections. Other outstanding options include an inexpensive internal Ethernet interface for easy integration into network systems, label cutters, and a keyboard for printing labels in stand-alone or down-time situations.

The easy to load center-biased clamshell design holds a large roll of labels and fits into areas other printers cannot and integrates easily into a wide range of applications. Simply open the cover and drop your labels into the printers. Top of form sensing by gap, black mark, or notch is standard and completely adjustable from side to side.

With enhanced electronics, the TDP-247 offers a 200 MHz processor, standard memory of 4 MB

Flash, 8 MB SDRAM and a slot for SD memory expansion that increases Flash storage up to 4 GB. The printer supports standard industry emulations right out of the box including Eltron® and Zebra® printer language.

### Key Printer Features

- ▶ High quality double-walled clamshell design
- ▶ 203 dpi and 300 dpi resolution versions
- ▶ Direct thermal print technology
- ▶ Easy media loading
- ▶ Head-up sensor
- ▶ USB 2.0, Parallel and Serial connectivity standard
