Why Digital Signage?

Educate, motivate and enrich the customer experience by using digital signage. Digital signage is a form of advertising generally shown on an LCD, LED or Industrial LCD screen. Digital signage can be found in public and private environments such as malls, airports, sporting arena's, transportation, entertainment, schools, retail, hospitality and many more. Benefits to digital signage are many including advertising specific products/programs, return on investment (ROI), the ability to display eye-catching content, change messages quickly and easily by time and location. Marketing your content has never been easier using real-time media, video and animations.

Digital Signage Solutions
How To Get Started?
Easy Steps to Installation

3. Create Your Configuration with Quotation
4. Installation of Your Digital Signage Solution

Making Technology Easy!

Independent Bundle

The Independent Bundle comes with full hardware and software support. Content software provides the latest in digital signage technology without pricey content development costs. Users will no longer have to pay for content creation, they will be able to create it themselves by simply using Window's PowerPoint and Flash conversion software. Once created content can be viewed instantly.

- Best Fit for Small Businesses
- 24/7 Software Support
- "On-Site" Replacement Programs
- Leasing Options Available
- 3-Year Warranty
- Includes Monitor, Media Player, Flash Conversion Software and Wall Mount

Enterprise Solution

The Enterprise solution is best suited for multiple locations. It comes with full hardware and software support.
Tatung offers two types of software:
1) Web Based
2) Server Based
Options include remotely handling and scheduling your content, SMS texting, wireless cellular data service positioning and the ability to monitor multiple stations through remote access.

- Best Fit for Multiple Locations
- Client Center Web Based with Monthly Fee

- Client Center

ST-HB42A1X
42" Monitor
500 cd/m² Brightness
1200:1 Contrast Ratio
16.7 Supported Colors
1920 x 1080 Resolution
Power Consumption <250W
Dimensions (WxDxH) 1026.0 x 619.0 x 121.6 mm

Media Player
Triview's media player and software are an essential part to digital signage. Simply connect and start to create your content using the provided software.

Mini-ITX Motherboards
Intel® Atom™ Mini-ITX Motherboard with Intel® 945GSE Chipset

FEATURES
- Onboard Intel® Atom™ Processor N270,1.6GHz, 533MHz FSB
- 1x DDR2 DIMM, Max. 2GB
- Supports CRT and LVDS (dual display)
- Onboard 10/100/1000 Mbits PCI-E Gigabit LAN x 2
- 2x SATA II, 8x USB 2.0, 4x COM, 1x IDE
- 1x PCI, 1 x PCI-E (x1), 1x Mini PCI-E(x1)

Software
Easy Start comes pre-loaded with customizable content templates that we call Smart Pages. Each template lets you type in text and choose a background graphic, and many templates have areas for additional images. You can use the backgrounds and images that are provided, or upload your own image in standard web formats like JPEG, GIF, and PNG. If your project calls for just a few screens in a few locations Easy Start can help you get started quickly and affordably. The system arrives ready-to-use with hardware, software and content.
Client Center
Control digital signage via the Internet. Manage devices from any web enabled computer. No need to send out new CDs or DVDs when content changes. Display content full screen or divide up the display using simple HTML templates. Create playlists, ad campaigns full-motion video, Flash animation, livefeeds and still images. Assign schedules based on date and time, geographic location, type of venue, etc. Upload content once, regardless of how many devices will be displaying it.
