

# PAYWARE MOBILE e335

## MOBILE MAXIMIZER

With more retailers appreciating how tablets can enhance their store sales, VeriFone's next-generation PAYware Mobile e335 maximizes that potential. The device pairs with the Apple® iPad® mini to let retailers establish a POS anytime, anywhere. Use the iPad mini to check colors or styles, verify availability or confirm pricing. Accept mag-stripe, EMV chip and PIN cards or NFC/Contactless transactions. Then, close the sale on the spot – with fewer walk-outs and greater customer experience.

### THE BIG PICTURE

- Create a bold, compelling POS anywhere a sales representative interacts with a customer
- Take full advantage of the colorful, high-resolution iPad mini display to view style or color options, check product features or look up pricing without compromising mobility
- Save time and money by emailing the receipt or printing it to a centralized printer
- Future-proof mobile POS is ready for all types of payments: mag-stripe, EMV and NFC/Contactless

### INNOVATIVE DESIGN

- Securely locks to an iPad mini to dependably accept payments anywhere in the store
- Allows the iPad mini to sit flat on a counter when not in use – and avoids interfering with the rear-facing camera, audio jack or other key controls
- Relies on the high-speed Apple Lightning™ connector for the fastest transaction processing
- Features a shoulder strap for easier carrying and an elastic wrist strap to guard against mishaps when handing it to a customer
- Rugged design withstands the most demanding retail environments and helps it maintain its high-end appearance

### FUNCTIONAL AND FLEXIBLE

- Provides extended battery life, up to 12 hours depending on usage model – with up to 120 hours of standby time with an always-on feature
- Has a built-in PIN pad and fast-scanning, 2D laser barcode scanner
- Smart charger with full communication capabilities, allowing complete estate management and fast charge of PAYware Mobile e335 and iDevice simultaneously
- Relies on VeriFone's mobile framework/developer's kit to enable customized applications that are complemented by a full suite of mobile software solutions from GlobalBay, designed to boost productivity and efficiency
- Integrates optional VeriShield Total Protect, featuring advanced, end-to-end encryption and tokenization so sensitive cardholder data never enters the mobile device – plus it has a Tamper Resistant Security Module (TRSM) to safeguard encryption keys

### Processor

400MHz, ARM11 32-bit RISC secure processor

### Memory

128MB of Flash, 64MB of SDRAM

### Display

128x32, monochrome

### Keypad

3x5: '0' to '9', '\*', '#' and function keys: Cancel, Clear, Enter

### Battery

Li-ion 1530mA (rechargeable)

### Mag-stripe Reader

Tripe track (track 1, 2, 3), low and high coercivity, bidirectional (ISO7810, 7811, 7813)

### Smart Card

Landing connector, EMV L1 and 2, 1 Security Access Modules (SAM)

### Integrated Contactless and NFC Support

Support ISO14443 & ISO18082, MiFare  
Support for all major card schemes (MasterCard PayPass, Visa Paywave, American Express ExpressPay, Discover Zip) and more as well as major NFC wallets

### Barcode scanner

High-end 1D/2D bar code imager, laser aiming, multiple scan support

### Laser

Class 2 laser radiation  
Compliance with FDA radiation performance standards  
21 CFR Subchapter J | 650 nm, 1mW max

### Connectivity

Apple Lightning connector

### Power

Charging thru microUSB or gang charger  
Integrated rechargeable battery providing up to 12h of operation depending on usage model

### Security

Meet the highest security requirements including  
PCI PTS 3.x / SRED

### Physical

Design to fit iPad Mini | 217 x 143 x 26.5 mm (with tray)  
71 x 143 x 26.5 mm (without tray)

### Environmental

Operating environment: 0°C to 40°C (32°F to 104°F),  
5% to 95% Relative Humidity non-condensing  
Drop test: 3 ft, 6 faces on concrete

### Accessories

Smart charger allows user to charge and manage up to  
5 units | Individual power adapter shoulder strap
