WPS200

BARCODE SCANNER

Productivity Solutions for Small Businesses

The Wasp WPS200 Omni-Directional Barcode Scanner is a high performance scanner ideal for retail Point-of-Sale (POS) and warehouse applications. Utilizing a digital imaging scan engine, the WPS200 is capable of reading both 1D and 2D barcodes with ease. Unique Illumination technology optimizes light levels and provides the ability to read barcodes from mobile phones, tablets, and computer displays. For busy retail environments, the WPS200 can be used in hands-free and handheld mode. Checkout personnel simply wave the barcode label or tag across the face of the scanner. Regardless of barcode label orientation, the WPS200 Omni-Directional scan engine will quickly read the barcode and assist in the rapid check out of your customers.

The WPS200 Omni-Directional Barcode Scanner can also be used as a 'point' scanner to scan invoices or pick lists and is a perfect addition to any warehouse. Its rugged housing can withstand repeated 4 foot drops to concrete, and is sealed against moisture and dust (IP52 particulate and water sealing rating). For noisy environments, the WPS200 provides visual feedback, perfect for confirming a positive scan or for precise targeting of a single barcode from a group of barcodes. The Wasp WPS200 includes a 2-year manufacturer's warranty covering material defects. Manufacturer warranties can be extended and upgraded to cover accidental breakage with the purchase of an optional WaspProtect extended service plan.
