QuikCard™ Professional Photo ID Kit

Everything You Need to Create Professional-Quality Cards

Zebra's QuikCard™ Professional Photo ID Kit gives any size organization the power to create professional-quality identification, security and commerce-related cards. Pair it with any Zebra card printer to meet your specific requirements for an end-to-end solution that provides the assurance of complete component compatibility.

High-Value, Simple-to-Use Solution

This easy-to-use, affordable, all-inclusive starter kit makes it simple for your organization to quickly and easily set up a professional ID system or other photo card program with the quality and professional appearance you require. The QuikCard Professional Photo ID kit includes:

- Zebra CardStudio™ Professional edition design software, which includes templates for exceptionally easy and fast creation of various types of cards, makes designing, encoding, and printing cards and managing databases fast and efficient.

- A USB high-resolution digital camera for capturing photo ID pictures

- A genuine Zebra™ card supplies starter kit (a supply of 700 cards, available with or without magnetic stripe)

- Quick- and easy-to-assemble portable backdrop with adjustable stand

Ideal for these applications

Great for organizations of any size, with needs ranging from entry-level ID badges to enterprise-ready secure payment cards. The Zebra QuikCard Professional Photo ID Kit fulfills ID, security and commerce-related card applications including:

- Corporate and institutional security ID cards

- Loyalty, membership and retail cards

- Student and faculty IDs and library cards

QuikCard Professional Photo ID Kit Features*

1 **CardStudio Software (Professional Edition)**
- **Zebra Card Design Templates**—Drastically reduces the time necessary to create professionally designed cards with high-quality graphics. Easy-to-use template designs quickly allow creation of custom card designs while bypassing the learning curve normally associated with card design software.
- **Zebra Template Designer**—Collection of standard card design backgrounds, logos, and design elements (with associated datafiles) for quickly creating custom card designs by editing text, data and graphics of predesigned cards; or build your own unique card design.
- **Languages supported**—English, German, French, Italian, Spanish, Portuguese, Korean, Japanese, Danish, Czech, Traditional and Simplified Chinese.
- **Software features include**—Full-color design capabilities (single- and double-sided cards); image acquisition (VFW, TWAIN, WIA, DS, File); printing variables (date time, counters, concatenation and keyboard input); 1-D bar codes—complete library; magnetic encoding (ISO, JIS).
- **Database Management**—Connect your database to seamlessly import data for multiple card-production applications.
- **Advanced Encoding and Security**—Encode magnetic-stripe cards, contact or contactless smart cards and UHF RFID cards using security features that include biometrics management and password-protected logins for multiple users.

2 **Photo ID USB Digital Camera**

High-Resolution Photo ID Camera—Capture high-resolution color digital images with the easy-to-install and -use camera. Just insert the camera USB cable into a computer USB port for plug-and-play connection.

Specifications
- Video and photo capture
- All-digital megapixel photos
- Flexible gooseneck arm allows for easy camera positioning
- Small footprint saves table space
- High-speed USB 2.0
- CCD sensor provides high sensitivity and quality
