

ZebraDesigner™ for XML v2

Powerful Features in an Easy-to-Use Package

ZebraDesigner for XML offers both the label design features and printer configuration tools that enable printing on Zebra's XML-Enabled printers. The easy-to-use variable wizard makes it simple to link variable information to text, bar code and RFID tags on the label. Graphics and fonts can be easily downloaded to the printer to accelerate throughput while allowing for label design flexibility.

Once label designs are complete, the label template can be distributed to one or many printers with a single click. As new labeling needs emerge, it's "click" simple to create or edit existing designs. Designing a label has never been easier!

Enhanced with New, Versatile, Simple Tools

Easy-to-use label design tools and expanded RFID wizards make it simple to create complex labels—based on fixed or variable data. Controlling field content, overall label formatting and creating template files have all been enhanced.

The updated ZebraDesigner printer drivers place advanced printer diagnostic and configuration tools at your fingertips. Download fonts, graphics and firmware using an intuitive Windows® interface.

The new ZebraDesigner for XML licensing system gives you control over product activation. Download a demo version to test drive the software, and then purchase an activation key from your Zebra reseller or at www.zebrasoftware.com. Need to move a key from one PC to another? The License Manager guides you through the process.

Featuring an intuitive, Windows®-based interface and a WYSIWYG label designer, ZebraDesigner for XML makes creating complex bar code label designs and format changes "click" simple.

All XML-Enabled Zebra printers are supported. ZebraDesigner for XML supports the following User Interface languages:

- Croatian
- Czech
- Danish
- Dutch
- English
- Finnish
- French
- German
- Greek
- Hebrew
- Hungarian
- Italian
- Japanese
- Korean
- Lithuanian
- Norwegian
- Polish
- Portuguese
- Russian
- Simplified Chinese
- Slovak
- Slovenian
- Spanish
- Swedish
- Thai
- Traditional Chinese
- Ukrainian

1 DESIGN

With the help of the software's new design and RFID wizards, it's easy to create complex labels based on fixed or variable data.

2 DEPLOY

The design distribution wizard makes it easy to send label templates to one or many printers with a single click.

3 PRINT

Once labels are resident within the printer, send XML data streams to print labels.

- Supported Operating Systems: Windows 2000/XP/2003/2008/Vista/Windows 7
- For use with XML-Enabled printers only
- Use ZebraNet™ Bridge Enterprise to enhance your printer management capabilities (free version included)
